HENRY CLAY DEAN has written and published a long article on the subject of civil service reform. His ideas are peculiar, as they always were. His remedy for all the abuses in Government would be popular elections for nearly all offices by the people. He would have Presidents, United States Senators, United States Judges of Districts and Circuits and of the Supreme Court elected by a direct vote of the people. He would have Cabinet officers, Chiefs of Bureaus, Collectors of Ports, Territorial officers, Foreign Ministers and consuls chosen by the joint vote of the two houses of Congress. He would have the Military Academy at West Point abolished and candidates for United States army officers selected by competitive examination.
